SSHEDx CAN HELP

The SSHED business accelerator helps all types of businesses grow – retailers, IT, builders, hairdressers, manufacturers, home-based businesses and many more.

If you're running your own business, you can't be expected to know it all. And that's where our SSHEDx program steps in. We give you a dedicated business advisor to help map out your business future.

"I've been part of SSHEDx for four years and it's been extremely motivating and inspiring. When you run your own business, you can easily get caught up in the day-to-day, but this program has reignited my passion. Working with my advisors, we're making the business better in so many ways".
